Note 1: EIAJ (Electronics Industrial Association of Japan) standard package. The width of the package is slightly wider than the JEDEC std. (US). However, since EIAJ parts have the same lead pitch as JEDEC parts, they can usually be placed on the JEDEC footprint without problems.

Note 2: TO-220F (Full Molded TO-220 package) The mechanical dimensions are different due to the encapsulated fin. Please refer to the attached illustration.

Note 3: SSOP Package (Shrink SOP Package) is available.

Note 4: Devices are functionally equivalent, but NOT pin-to-pin compatible.

Note 5: TO-252 or DPACK Package: designated with suffix "DLA"

Note 6: Licensable Product.

Note 7: NJR and competitor's parts have been discontinued.
